FunctionUp, Frontend Developer Trainee

- Trained in Fronte-end Development using **React.js**, HTML, CSS and **JavaScript** March, 2023- Present
- Explored different libraries to enhance development efficiency such as **Redux** for state management.

PROJECTS

PROJECT NAME : TWITTER CLONE [GitLink](#) May,2023

Language Used : Javascript

Framework/Library: React [Deploy Link](#)

Overview: The main objective of this project was to develop an understanding of what we have learned. We successfully implemented the login and logout feature, as well as worked on protected routing to ensure secure access to certain parts of the application. Additionally, we handled the tweet section we can give like and dislike to every post.

PROJECT NAME : KANBAN BOARD [GitLink](#) June,2023

Language Used : Javascript

Framework/Library: React [Deploy Link](#)

Overview: This is a simple implementation of a Kanban Board, a tool that helps visualize and manage work. A Kanban Board is usually made of 3 columns - TODO, InProgress & Done. In each column there are Post-it notes that represents task and their status.

PROJECT NAME : GYM [GitLink](#) June,2023

Language Used : Javascript

Framework/Library: React [Deploy Link](#)

Overview: The Gym Website is a dynamic fitness center website. It features a sticky header, user registration/login, an engaging About Us section with a YouTube video, scrollable Training Programs, a Trainer section, Pricing details, and social media integration. The project showcases web development, UX design, and library utilization skills.

PROJECT NAME:PIXICO [GitLink](#) June,2023

Language Used : Javascript

Framework/Library: React [Deploy Link](#)

Overview: Pixico is a popular online platform for free high-quality images. It offers a vast collection of visually stunning picture. With its user-friendly interface. It provides easy access to a wide range of visually appealing images for personal or commercial use. We can download images and upload images as well and create or own seperate board categories image.
